

Reflo

Summer Environmental INTERNSHIP

WHO SHOULD APPLY?

Current 9th - 12th grade students and young adults 1 year past graduation. Successful candidates will communicate an interest in **environmental sustainability** initiatives, a willingness to support project site maintenance, environmental education connections, and outreach activities in the community.

HOW IT WORKS?

The Summer Environmental Interns will support community-based projects throughout the city, through environmental conservation projects and developing relationships with peers interested in climate justice and sustainability. Interns will assist with green infrastructure maintenance, explore blue/green careers, and gain hands-on experience. Interns will meet in-person **4 - 5 days a week** from **June 4 - August 23** completing **~25 - 35 hours per week**. This **PAID** internship opportunity offers the potential to connect with other partner organizations throughout the summer.

INTERESTED?
